PROFESSIONAL SUMMARY

Aspiring Full Stack Developer with hands-on experience building and deploying scalable MERN stack applications. Proficient in React, Node.js, Express, and MongoDB, with strong expertise in REST APIs, authentication, and back-end system design. Passionate about developing production-ready solutions and contributing to real-world software engineering projects.

EDUCATION

Vishwakarma Institute of Information Technology, Pune, University 2023-2027
Bachelor of Technology in Information Technology
CGPA: 8.12

TECHNICAL SKILLS

Programming Languages	C++,Python, JavaScript
Web Technologies	React.js, Node.js, Express.js, MongoDB, HTML, CSS
Backend AND APIs	REST APIs, JWT Authentication, Multer, Cloudinary
Tools AND Platforms	Git, GitHub, Postman/Thunder Client, MongoDB Atlas, Vercel, Render
Concepts	Full Stack Development, Authentication AND Authorization, API Design, Audit Logging

PROJECTS

Mini Event Platform (MERN Stack)

- Developed a full-stack event management platform using the MERN stack with secure JWT-based authentication.
- Implemented RSVP system with capacity control and integrated image uploads using Multer and Cloudinary.

Smart Complaint Management System

- Built a role-based complaint management system with secure APIs and JWT authentication.
- Designed priority-based resolution workflow with escalation, audit logging, and real-time dashboards.

Cardio AI – Heart Disease Predictor

- Developed a machine learning model to predict heart disease risk using medical datasets.
- Performed data preprocessing, feature selection, and evaluation to improve prediction accuracy.

CERTIFICATIONS

- Cisco Networking Essentials
- Introduction to DevOps
- Deloitte Australia – Data Analytics Job Simulation

ADDITIONAL INFORMATION

- Familiar with Data Structures and Algorithms
- Strong problem-solving and debugging skills
- Languages: English, Hindi, Marathi
